I installed 14.10 and I had major issues with it. I ran a recovery and formatted it, and this time I am having no problems with Ubuntu. Am I correct in thinking that there is no reason to upgrade at this time? Is there an upgrade path? A: I think you can upgrade from 12.04 to 14.10, however, I'd recommend to do a fresh install. 14.10 is the release candidate of 15.04 and should be stable. To install 14.10 from a clean installation, follow these steps: Open the Update manager via Dash and check for updates. You can choose which one to update. Upgrade 14.04 -> 14.10 Restore apps and configurations If there are a lot of apps, it is better to backup first. Install 15.04 For more info you can check this post. Q: Qt GraphicsView with QImage I have the following code: //...load texture QImage img(texFile, w, h, QImage::Format_RGB32); QPixmap pix(img); QGraphicsView* view = new QGraphicsView(pix); view->setGeometry(QRect(100, 100, 200, 200)); addWidget(view); Now it shows the texture as expected, but I want to add a QGraphicsPixmapItem on top of the texture (as a 'canvas'). According to this:
