XIVLauncher gives the user a comprehensive and familiar interface for managing their account and the game. Gamers can navigate through their game, manage plugins, and enjoy a wealth of features for a very reasonable price. Having a launcher to manage your Final Fantasy XIV account is a necessity, and for that reason alone the developer deserves credit for implementing such an option. The launcher can be found on the Steam market for an average \$4.99 USD, so not a bad price for such a popular game. Whether or not it does its job well, though, is something only time will tell. Final Fantasy XIV: A Realm Reborn/Final Fantasy XIV: A Realm Awoken Review The original Final Fantasy XIV brought with it a beautiful world, but it suffered from serious technical flaws. With A Realm Reborn/A Realm Awoken, Final Fantasy XIV is back with a rebuilt client that is optimized to run smoothly on the PS3 and PS4. Upon release, Final Fantasy XIV: A Realm Reborn/A Realm Awoken received critical praise for its technical improvements over Final Fantasy XIV and the promise of a better Final Fantasy XIV. However, the further Final Fantasy XIV has come since Final Fantasy XIV's release, the more it has been proven to be just that: the Final Fantasy XIV reboot is a hit and misses: the developer went back to the drawing board to give a new life to an old Final Fantasy XIV, and after years in development, A Realm Reborn/A Realm Awoken is finally available for purchase and download. Final Fantasy XIV: A Realm Reborn/A Realm Awoken: What's New? Final Fantasy XIV: A Realm Reborn/A Realm Awoken takes the FFXIV experience and applies it to the latest and greatest console game consoles: the PlayStation 3 and PlayStation 4. Final Fantasy XIV: A Realm Reborn/A Realm Awoken has the same graphical engine as the original Final Fantasy XIV, and that's not all that is the same. The gameplay elements have been redesigned to take advantage of the hardware enhancements in PS4 and PS3. FFXIV: ARR/ARW brings with it improvements in the following aspects: AI, general performance, character models, battle animation, and more. You can read more about Final Fantasy XIV: A Realm Reborn/A Realm Awoken in our Final Fantasy XIV: A Realm Reborn/A Realm Awoken review, but we will start by going over the changes and how they affect players.
