NOTE: 24K Real Player edition now available - (free!) You can now use your portable Media Player to control the Linux Media Center, such as MythTV, VDR, etc. Note: This product is now available on the SourceForge.net web site. This add-on supports MythTV 0.26. The MythTvMPRP24 is a Sony PS3 Media Renderer Plugin for MythTV, it is based on the 24K Real Media Player (MPRP) which is a “free” Sony PS3

Media Renderer Plugin. The MPRP 24K is free as the article, please download the 24K Real Player, then download this plugin from the MythTvMPRP24 web page. The Media Renderer is a standalone tool that gives you the ability to stream and record content from your Sony PS3 Media Renderer to a MythTV system. Note: This plugin is "in the works". I have currently only managed to add the functionality of mapping the PS3 as a media source via the MythTV Database. This will cover all the functionality listed below. MythTV 0.23.3 is required for this plugin to work
